

## THE FOOD THAT'S IN WHEN SCHOOL IS OUT

During the school year many kids get free or discounted meals at school, but when school's out, they may be out of luck. The Summer Food Service Program (SFSP) helps children get the nutrition they need to learn, play and grow during the summer months when they are out of school. Just as learning does not end when school lets out, neither does the need for good nutrition. Children who aren't hungry learn better, act better, and feel better and are nutritionally ready when school starts in the fall.

Children under the age of 18 can receive a meal free of charge at a participating site. The SFSP is administered at the Federal level by the Food and Nutrition Service, an agency of the US Department of Agriculture, and here in Florida, through the Department

of Education. The SFSP provides nutritious meals in low-income communities when school is out.

In Manatee County the SFSP is run through the county school system, which serves both breakfast and lunch at select schools; and is also run separately through Manatee County Government which only serves lunch at specific approved community centers and churches.

School Summer Food Programs serve free meals to children 18 and under. Adults may purchase meals; \$2.50 for breakfast and \$3.50 for lunch. Meals are to be eaten on site and during the specific assigned times. All meals meet State and local health and safety standards.
