

# Attention Parents & Caregivers

*Find out how your Child is doing!*

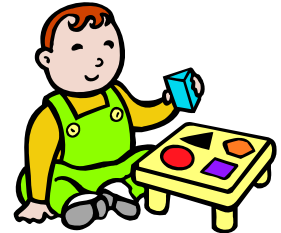

## Free Community Developmental Screening for Children 0 - 5 Years Old

*An Initiative of The Whole Child Manatee Community Providers*

### Early Childhood Screening helps you:

- ♥ *find out how your child's skills in thinking, communication and language, large and small muscles and social/ emotional development are growing*
- ♥ *connect you and your child to early childhood programs and other community services*
- ♥ *answer your parenting questions*

### Should I wait until my child is in kindergarten?

*Earlier is better! Waiting until a child is in school may be waiting too long.*

After the screening, you will be given a full report of your child's learning and growth. Information to support your job as a parent will also be available.

All of this is important for your child's continued learning and readiness for future school success.
